

We are the people that pay for our telephone service, not the telemarketing companies, and as we pay, we should be able to choose who we want to call us. We also pay our mortgages and rents, not telemarketing companies, and we, who pay, should be able to choose who enters our house....whether in person or by telephone. Please respect our wishes, the wishes of the people who pay for our services, and keep the No-Call Registries intact.
